Document CSS Tech. Overview

RID ID	CDR	30
Review	SDPS/CSMS	
Originator Ref		
Priority	2	

Section	Page	Figure Table
Category Name	CSS Design	Actionee ECS
Sub Category		Related RIDs Subcategory ID

Subject DCE Versions and upgrades

Description of Problem or Suggestion:

OSF DCE is pervasive throughout the ECS hardware and software infra structure. It is also itself a complex software system which is rapidly evolving. There does not seem to be a well-defined procedure of the incorporation of future DCE version into the ECS.

Originator's Recommendation

- 1) Prepare a detailed hardware and software dependency matrix against DCE features.
- 2) Prepare an estimated schedule and cost/benefit analysis for migrating from DCE 1.0.3 to DCE 1.1 and subsequently to DCE 1.2.
