Subject Release D Flight Plan

## Description of Problem or Suggestion:

The Flights included with ECS Release D (CHEM, ALT) are inappropriately shown in the Master Schedule as of 8/11/95.

## Originator's Recommendation

The EOS Project Plan Rev, A shows Altimetry spacecraft flights beginning in 1999 for RALT-1 and 2003 for LALT-1. The Master schedule cited shows ECS Release D (CHEM, ALT) at the end of 2001. Revise the master schedule to reflect the EOS Plan Rev.A.

The ECS Master Schedule reflects the missions defined by the current ECS Contract. The RALT-1 and LALT-1 missions are included in Change Order #2, which is currently under contract negotiations. The ECS Master Schedule will be updated to reflect the Change Order #2 missions upon completion of negotiations, or can be updated with a letter of direction from the COTR.
