Subject EOSDIS POLICY

Description of Problem or Suggestion:

Major sections of the design for EOSDIS are being held "Hostage" to "Policy" details. In some case design cannot continue without major operating policies being derived and documented.

Originator's Recommendation

- 1) Project should develop baseline operating "policy" to sufficient detail to permit efficient design activities to continue to CDR.
- 2) Plan for policy determination, schedule for implementation, and documentation of same must be developed.
