Subject Diagram incorrectly depicts ASF S/C external interfaces

Description of Problem or Suggestion:

The context diagram on this page shows that ERS, JERS and RADARSAT are external interfaces to the ECS Ingest Subsystem. This is not correct.

Originator's Recommendation

The ASF DAAC - unique system is really the external interface with the Ingest Subsystem for ERS, JERS and RADARSAT data.

Delete the ERS, JERS and RADARSAT boxes from the diagram.
