Sub Category
Subject ASTER ICC Real-Time Commanding Access

Description of Problem or Suggestion:

During the review, an issue was raised as to whether or not the ASTER ICC would ever utilize the real-time commanding feature presented in the FOS design.

Originator's Recommendation

Meet with ASTER ICC and AM-1 Project representatives to determine if this is a needed FOS feature.

HAIS Schedule 1/20/95

HAIS R. E. D. Dunn

HAIS Response Date 1/24/95

This issue was discussed at an ASTER meeting on Friday, December 16. It was determined that real time commanding from the ASTER ICC would not need to do real time commanding for the AM-1 mission. As such, implementation of software for this feature will be deferred for a future mission.
