HAIS Schedule 5/22/95

HAIS R. E. C. Gire

HAIS Response Date 5/10/95

The TSDIS data volume listed on page CG-6 of the SDPS PDR presentation was incorrect due to a typo. The ECS project baseline correctly lists the TSDIS volume as 14766.7 MB/day per the TRMM IRD (505-41-14, TRMM-490-152), dated February 1995. The ECS project baseline is used in all Ingest sizing models.
