Category Name Design-Planning/Design-Data Processing

Actionee HAIS

Sub Category

Subject DAAC involvement in Prototypes

**Description of Problem or Suggestion:**

ECS has developed several prototypes fro data processing and planning without direct participation from the DAACs.

**Originator's Recommendation**

Solicit evaluation of the prototypes by the DAACs priori to CDR.

**GSFC Response by:**

**GSFC Response Date**

**HAIS Response by:** Eisenstein

**HAIS Schedule** 5/22/95

**HAIS R. E.** McDonald

**HAIS Response Date** 6/30/95

Several other RIDs have requested DAAC involvement in the design of operational interfaces. Partially in response to these RIDs, ECS is soliciting DAAC evaluation of prototypes not only for Planning and Data Processing, but for all DAAC operations interfaces. The Operations Workshop in June demonstrated several COTS products that were considered for part of the Planning and Data Processing design as well as demonstrating the Planning prototype developed by ECS. Feedback from these activities is being incorporated into the Planning and Data Processing design. And a trip is planned to the LaRC DAAC in early July which will also result in feedback regarding the Planning prototype and the use of the scheduling COTS package selected.
